Don,

I am good with this but you may want to mention that since the City of Leonard is legally responsible for the conditions of the roads within the city that this mechanism insures the EPA has no legal consequences for the adequacy of the repairs.

The attached is the internal form ER used in Region 2 recently. Angela was good enough to find a sample template we could adjust for the street repair project with the city. It appears our VP must sign and submit to the CO.

Anyway, please review and comment, as needed. I purposefully kept this bland and to the point without elaboration.

I'll email Brandon and Terry to let them know to proceed once this is submitted and approved by all parties.

Regards,

Don
